Release of long-term targets and guidance for 2021

- DEFAMA released some detail on its **long-term targets** yesterday (07.12.2020). The portfolio value is expected to grow from a current EUR 168m to a range of EUR 260-300m by the end of 2025 which is an estimated growth rate of 9-12% p.a. This is in line with the existing management target to increase the portfolio volume by EUR 15-20m p.a. and considers some valuation uplifts, in our view. As DEFAMA was very successful with its acquisitions in 2019 and 2020 and has exceeded this target, the LT-target could offer some upside potential. Annualised rents are expected to increase to EUR 24m with an annualised FFO of EUR 11m (Target 2020 ~EUR 7m). As a consequence, the FFO margin should slightly increase from ~40-41% to EUR 45%. According to the CEO, these targets are achievable without a capital increase
- Secondly, management confirmed its guidance for 2020 for FFO of EUR 5.7m (FFOPS EUR 1.30) and net profit (German GAAP) of EUR 2.5m. These targets offer some upside, in our view, especially on FFO-level (WRe: EUR 5.86m).
- Thirdly, DEFAMA gave already **guidance for 2021**. This is in our view a sign of a high visibility of the positive growth effects in the existing portfolio and should already consider some good prospects for acquisitions. In 2021, DEFAMA targeted an FFO of EUR 7.1m (WRe: EUR 7.29m) and net profit growth of 24% to EUR 3.1m (WRe: EUR 3.12m). Both targets are conservative in our view. The portfolio growth should be supported by additional liquidity of EUR 2m from negotiation of existing loans.
- The annualised FFO-target of EUR 8m for 2021 offers an attractive FFO-yield of more than 9%.

 The announcement of long-term targets shows the management's confidence in the growth investment case of DEFAMA. We stick to our Buy recommendation.

Company Background

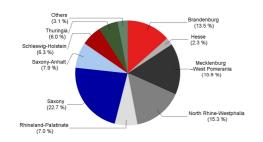

- Founded in 2014 and headquartered in Berlin, DEFAMA focuses on the acquisition, ownership and management of retail parks in German small and medium-sized cities, predominantly in Northern and Eastern Germany.
- The investment strategy is to "buy and hold" assets with high occupancy and minor capex needs for a purchase price of ~10x annual rent.
- Investment volumes are EUR 1 5 million per asset. Anchor tenants are nationwide retailers.

Competitive Quality

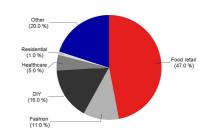

- Real estate competence: founder, major shareholder and CEO Matthias Schrade, previously oversaw as a board member responsible for acquisitions for a non-listed real estate company based in Munich.
- Unique focus: the company competes for assets that are too large for individual investors and too small for institutional investors and can "buy low".
- Strong access to local public banks networks, for whom real estate financings for DEFAMA projects are large and important deals. They in turn know smaller tenants well.
- Focus on leading centers in smaller cities ("big fish in a small pond").

The valuation underlying the investment recommendation for the company analysed here is based on generally accepted and widely used methods of fundamental analysis, such as e.g. DCF Model, Free Cash Flow Value Potential, NAV, Peer Group Comparison or Sum of the Parts Model (see also http://www.mmwarburg.de/disclaimer/disclaimer.htm#Valuation). The result of this fundamental valuation is modified to take into consideration the analyst's assessment as regards the expected development of investor sentiment and its impact on the share price.

Independent of the applied valuation methods, there is the risk that the price target will not be met, for instance because of unforeseen changes in demand for the company's products, changes in management, technology, economic development, interest rate development, operating and/or material costs, competitive pressure, supervisory law, exchange rate, tax rate etc. For investments in foreign markets and instruments there are further risks, generally based on exchange rate changes or changes in political and social conditions.

This commentary reflects the opinion of the relevant author at the point in time of its compilation. A change in the fundamental factors underlying the valuation can mean that the valuation is subsequently no longer accurate. Whether, or in what time frame, an update of this commentary follows is not determined in advance.

Additional internal and organisational arrangements to prevent or to deal with conflicts of interest have been implemented. Among these are the spatial separation of Warburg Research GmbH from M.M.Warburg & CO (AG & Co.) KGaA and the creation of areas of confidentiality. This prevents the exchange of information, which could form the basis of conflicts of interest for Warburg Research GmbH in terms of the analysed issuers or their financial instruments.
